

Two Days Workshop on Internet of Things (IoT)

For: IIIrd Semester Students

Resource Person: Mr. Sufian Aslam, IoT CoE

10th & 11th October 2018 [Batch-2]

Objective:

- Familiarize students with Internet of Things and its applications
- Give them hands-on experience with Sensors and Microcontrollers
- Help them learn and build back-end server applications for IoT applications
- Make it easier for them to build projects based on IoT
