

# PROJECT NEW BORN HEARING SCREENING

BY

ATRIA INSTITUTE OF TECHNOLOGY

The project NEW BORN HEARING SCREENING was awarded to Atria Institute of technology by S R Chandrashekar Institute of Speech and hearing in the month of November 2023.

## PROJECT NEW BORN HEARING SCREENING

The main aim of the application was to serve diverse communities in rural India. The application had to be language-inclusive, supporting multiple languages. Through SMS reminders, it had to ensure that parents in government hospitals receive personalized weekly checkup and vaccine notifications in their preferred language, promoting effective communication and enhancing healthcare accessibility for all.

The following members were a part of the project:

1. Rishab Jain
2. Rakshitha G
3. Amogh G
4. K Shree Harsha

The project was successfully completed by the last week of February under the guidance of the HOD of department of computer science Dr Devi Kannan . The project was successfully deployed and final project presentation was held at S R Chandrashekar Institute of speech and hearing .
