About Hackathon:

Atria Institute of Technology is a part of India's largest Online Hackathon "Hack for good COVID-19 - Protect the society!" IncubateIND joins hands with HERE Technologies and is asking developers across the board to help us create a platform to track the impact of COVID-19. This could be in the shape of a website, an app or any other solution which could help Government and Authorities to actively tackle the problem

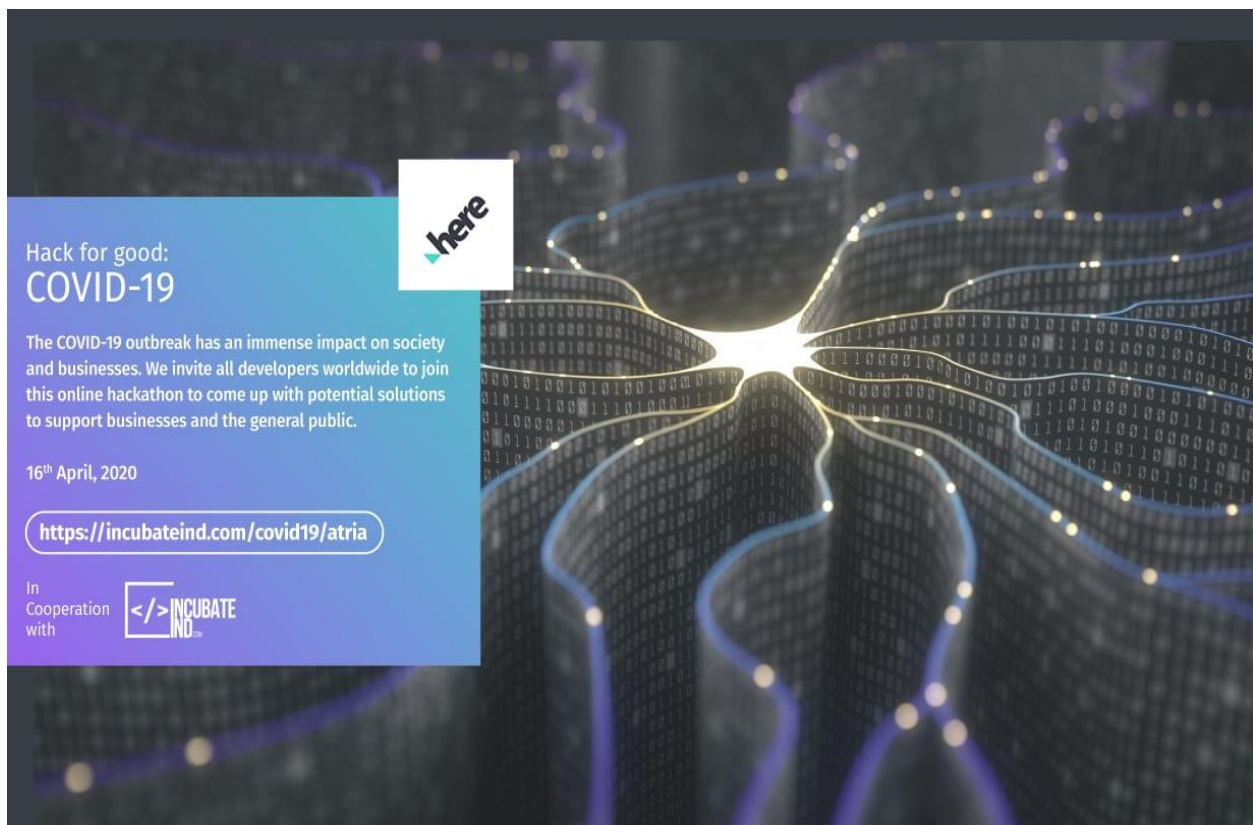

In Association with

About IncubateIND:

By providing a space for the next generation of explorers to discover, create, and work together to achieve collective goals and pursue shared ambitions, IncubateIND provides fertile ground for networking and teamwork. We work on solving world's greatest problems through technology driven community of entrepreneurs, student and government. IncubateIND will be an educational experience for participants of all levels. We will have various workshops like Educational, Drone, health, bots, cyber security etc. from which participants can learn entirely new skills or platforms, and many mentors who will be able to share their knowledge acquired with years of experience. More Details: info@incubateind.com
