**Parul**  
University

Date: 30-06-2020

To whomsoever it may concern

I have interacted to the Department Academic Committee in the meeting and learned about the Teaching-Learning Methodology used by the faculties of Electronics and Communication Engineering Department, Atria Institute of Technology, Bengaluru. The effective use of ICT and approach of the faculties of the Department is appreciable. Specially in the pandemic time the dedication and the efforts are commendable. Various approaches like Subject Seminars, Project Based Learning, and Group activity certainly will help students to make better understanding and make them a better responsible engineer. The value-added courses offered by the Department like ECE ++ Artificial Intelligence and ECE ++ Internet of Things will open better opportunities for the students for the placements.

I wish all the best to the department for the continuous improvement in the teaching learning pedagogy.

Thanking You

Dr. Arvind R. Yadav

Professor and Associate Dean

Parul Institute of Engineering and Technology,

Faculty of Engineering & Technology, Parul University

Waghodia, Vadodara, Gujarat, India.
