Guest Lecture-Role of Electronics Engineers in Modern India

To commemorate the Engineer's Day, FUSE the student club of the Dept of ECE had organized a Guest Lecture on "Role of Electronics Engineers in Modern India".

The speaker on the occasion was Mr. Shashank Krishna, Director of Katmai Infotech Pvt Ltd. He has been awarded Make in India Hackathon Popular Choice Award by Government of India (IIT - B) and Smartathon (Smart City Project) Award by Government of Karnataka. He is a HackerEarth Ambassador & Microsoft Student Partner (MSP). He has been nominated for the 'Padma Shri 2019' award under Science and Engineering Field.

The lecture was to bring about student awareness regarding the role of engineers in the technological and economic growth, leading to the overall development of the nation. Mr. Shashank, educated the students about the importance of student participation in national level technical events like AICTE and Govt of India sponsored Smart City Hackathons. He also assured mentoring top student ideas in this event.

On this event Dr. K V Narayanaswamy, honorable Principal-Atria IT shared the relevance of Engineer's Day with the students. He emphasized that the students have to imbibe the qualities of Sir M Visvesvaraya to be successful professionally.

Prof. Vasanthi S, HOD-ECE, Head's of various departments, faculty and students were present during this event.
