

FULL STACK WEB DEVELOPMENT
in association with
INCUBATE IND

The poster features a purple and pink color scheme. At the top left is the ATRIA Institute of Technology logo, and at the top right is the Incubate IND logo. The main title is 'WEBINAR ON FULL STACK WEB DEVELOPMENT'. Below this, a circular portrait of Mr. Vikram Maiya is shown, with his name and title 'Senior Engineer, Jodovo technologies' underneath. To the right, a list of details includes prerequisites (Basic Programming Skills), platform (Google Meet), and time (10 AM onwards). At the bottom left, a 'Join Here' link is provided, and at the bottom right, the host is identified as the Department of Computer Science & Engineering.

Speaker

Mr. Vikram Maiya
Senior Engineer, Jodovo technologies

*** Prerequisites:**
Basic Programming Skills

*** Platform:**
Google Meet

*** Time:**
10 AM onwards

Hosted by
Department of Computer Science & Engineering

Department of Computer Science & Engineering had organized 2 Days Webinar on "**Full Stack Development**" in association with "**Incubate IND**". During the session, concepts of Web Designing were cleared and hands-on-training was given.

About Full Stack Development

Web design is made up of three layers. The user-facing side, or front end, handles the presentation portion of a page, app, or service. The business logic layer, or back end, handles information validation, and the database keeps track of the information exchange. The old days of development saw a big division between front end and back end developers, but as businesses and organizations move towards continuous innovation, a full stack developer is in high demand. If you can build an application from end to end, you're likely to catch the eye of organizations on the cutting edge of technology.

Webinar Schedule:

</> INCUBATE IND™

ino.

Vikram Maiya
Senior Engineer
Jodova Technologies

9TH MAY 2020 - 10TH MAY 2020

FULL STACK WEB DEVELOPMENT WEBINAR

KNOWLEDGE SERIES

9th MAY 2020
First Half
(10:00 AM - 12:30 PM)

- Introduction to Web development
- Introduction to Frontend
- Introduction to Backend
- Introduction to Database
- HTML training
- CSS training

Lunch Break
(12:30 PM - 1:30 PM)

Second Half
(1:30 PM - 4:30 PM)

- Javascript basics
- Javascript intermediate
- NodeJs basics
- NodeJs intermediate

10th MAY 2020
First Half
(10:00 AM - 12:30 PM)

Step-by-Step Hands-on Practical session:

- Installations and setting up
- project run time
- Database setup
- Backend server setup

Lunch Break
(12:30 PM - 1:30 PM)

Second Half
(1:30 PM - 4:30 PM)

- Backend to database communication setup
- REST API setup
- REST API testing using postman
- Frontend design
- Frontend to backend communication setup
- Q&A
- Discussion on various popular frontend and backend frameworks
- Conclusion
