## Cultural Activities during the year 2020-2021

31<sup>st</sup> July 2021

This academic year has been mostly online for students. The classes were mostly online, and so no major offline event could be held due to the Government SOP guidelines.

During the Odd semester, our college conducted a few online events under the cultural banner. A total of 11 events under Dance, Music, Art, and Literary were conducted. This was spread across the month of November so as to avoid clash between the events and so students could participate in all. The events were held after the class hours through the online mode so as not to disturb the academic activities. Some events had external participation from students at other colleges. Winners were felicitated with e certificates and cash prizes that was transferred to their bank accounts.

Thus, during the academic year 2020-2021, we were successful in organising 11 events.
