7. Conclusion of the activity.

INTERACTION WITH STUDENTS ABOUT THEIR INTEREST IN HIGHER EDUCATION

Most kids face **important** questions as they approach this point in life. Why continue your **education** beyond **high** school is important, so we had to educate and tell them the importance of educations in each ones life and how to empower oneself. So we had to tell them how **higher education** allows them to pursue a career that interests and inspires. When they have the freedom to choose there career, they are more likely to enjoy it. **Higher** job satisfaction also comes from **higher** income, better employment benefits, and more advancement opportunities and for a better living higher education is important.

CAMPUS CLEANING - As **Cleanliness** is most **important** for physical well-being and a healthy environment. It has bearing on public and personal hygiene. It is essential for everyone to learn about **cleanliness**, hygiene, sanitation and the various diseases that are caused due to poor hygienic conditions. So we took the students to clean their surroundings. #SWACHBHARATH.

FUN WITH STUDENTS

The purpose of we having fun and playing with them is, When we use activities that make **learning** engaging and **fun**, students are more willing to participate and take risks.

Having **fun** while **learning** also helps students retain information better because the process is enjoyable and memorable.

And there are **7 Health Benefits of Having Fun**

1. Reduced Stress.
2. Sweet Serotonin. On the flip side, having fun increases serotonin levels.
3. Improved Ability to Cope. Stress is inevitable—and not every waking moment can be spent having fun.
4. Boosted Energy.
5. Improved Memory and Concentration.
6. Improved Connection with Others.
7. Sounder Sleep.

First aid

We believe that every **child** aged between 5 and 11 **should** be taught basic **first aid**, helping them to stay safe and save lives in emergency situations. ... They are hoping lots of **students** will take part to demonstrate their skills, develop their confidence and strengthen their **first aid** knowledge. First aid ensures that the right methods of administering medical assistance are provided knowing how to help a person is just as **important** in emergency situations.

EXPLAINING BASIC OPERATION ON LAPTOP

We familiarized Kids with basic laptop controls and then move on to solving puzzles, playing games and completing activities. During this early stage of laptop use, a parent, teacher or another adult should always supervise them

Here are some basic steps that we thought kids how to use a laptop..

- 1. Practice using the trackpad and mouse.**
- 2. Learn how to log on.**
- 3. Learn how to launch applications.**
- 4. Learn how to bookmark websites.**
- 5. Practice using the keyboard.**

PRIZE DISTRIBUTION AND VOTE OF THANKS

The purpose of us giving out prizes to the students was that, **Prizes** are awarded to inspire a healthy sense of competition among the students. ... Extra-curricular activities give healthy outlet to the surplus energy among the students.

CONCLUSION OF THE ACTIVITY

NSS helped us to grow individually and also as a group. It has made us confident, develop leadership skills, and gain knowledge about different people from different walks of life and also it helped us to **learn** other skills that help us lead a better life in various situations. We are thankful for giving us such an opportunity.
